Mr. Seneca Watson,

Dear Sir, - The Plans of St. Ann's
which we want is the large volume
in which II^d and Ist are bound together.

The Elements of Botany is now in
our bindery and will be published as the
revised Edition of the Lessons but being just
at the end of the school season we have held
it back a little to avoid confusion. It will
be published at same price as the Lessons
94 cents -

Yours truly,

Ivison, Blakeman & Co.
